

# Teampay

For the parents

# How Teampay works for your son/daughter

On game day, the team manager logs into the Teampay app and selects who is playing

The match fee is charged to each each of the participants selected

When ready, the team manger taps confirm and payment is withdrawn from each players account, pooled together and sent across to the organisation

# Your payment is approved in real time

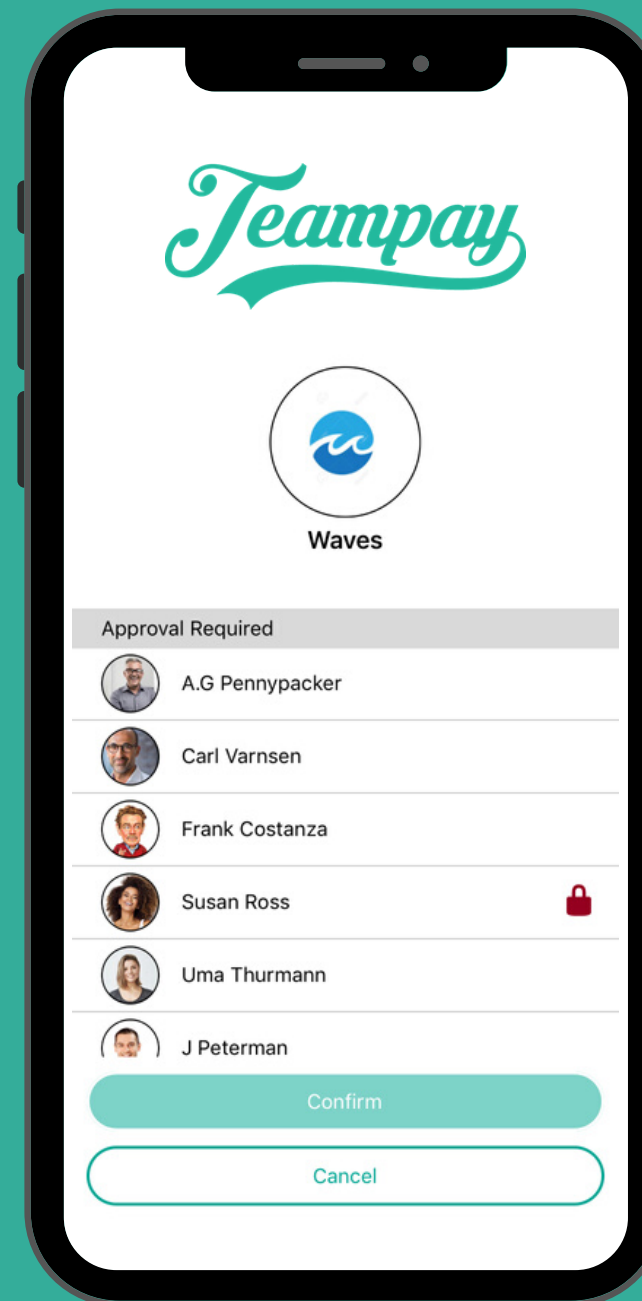

- Once your payment has processed, it will alert your organisation immediately that payment has gone through. Then you're good to take the court

# Pin protection for peace of mind

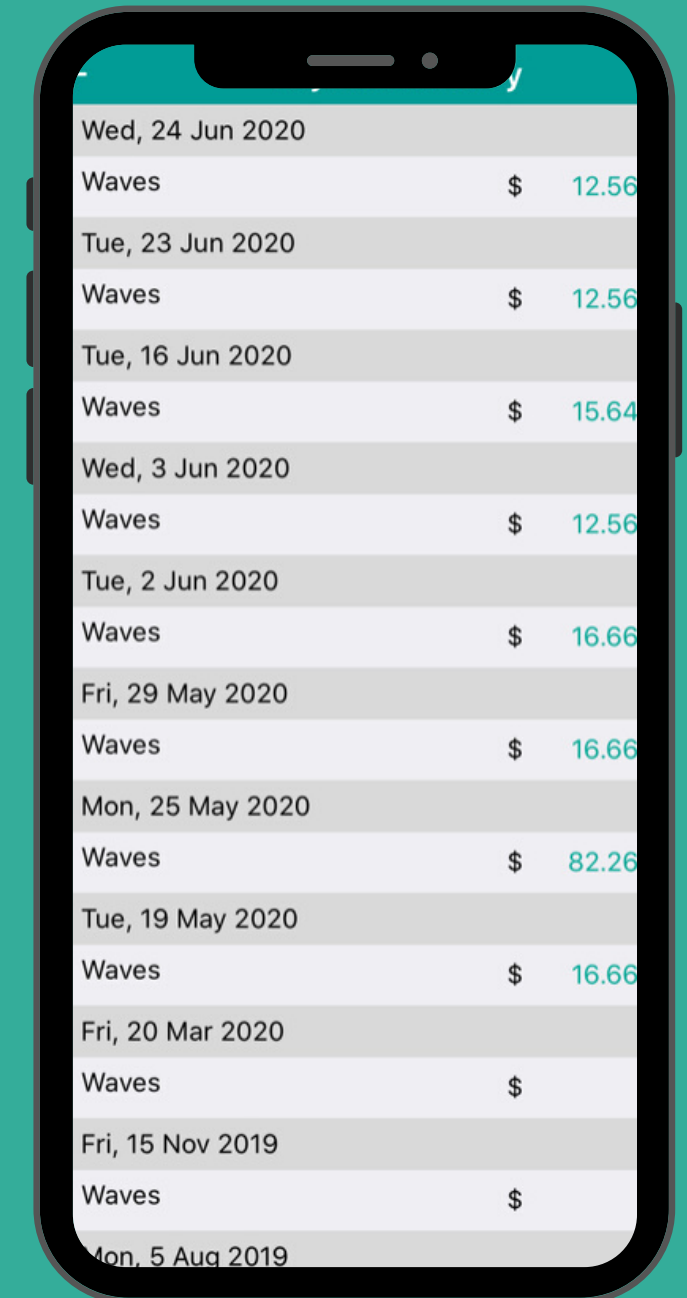

- You have the option to put a pin protection on your account to authorise payment before it goes through
- If you place a pin protection on your child's account, before any payments are taken, a red padlock will appear next to their name. The team manager simply needs to click on the padlock and a key pad will appear. You (or your child) will then need to enter in your 4-digit pin to authorise payment

# Access Payment History from your account

- You can see all the payments that have been made from your account by going into settings on your app and selecting Payment History.
- This will generate a list of every charge that has been made for your son or daughter

# Your security is our priority

Stripe has been audited by a PCI-certified auditor and is certified to PCI Service Provider Level 1. This is the most stringent level of certification available in the payments industry.

All card numbers are encrypted on disk with AES-256. Decryption keys are stored on separate machines.

Stripe's infrastructure for storing, decrypting and transmitting card numbers runs in separate hosting infrastructure, and doesn't share any credentials with Stripe's primary services.

# Benefits to you and your team

Team match fees  
streamlined

Expedites the  
payment process  
with your  
organisation

No longer are  
you looking for  
money each  
week to bring  
to the game

Removes the hassle  
of sourcing cash  
each week

Safe  
and  
hygienic

## Step 1:

Download the Teampay app by going to the App Store or Android Play store

## Step 2:

Create an account by selecting the sign up tab and entering your details

# How To Get Started

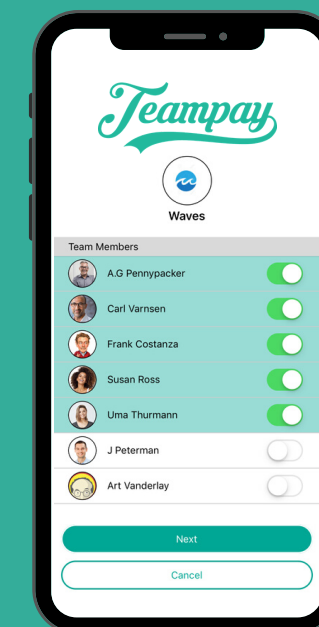

## Step 3:

Enter your unique team code. You can get your team code from your organisation

## Step 4:

Share the team code with your team mates and get them to follow the same sign up process

## Step 5:

Once your team are registered you can start making match day payments
